Mark begins by outlining the challenges facing our nation today. She points to the widening gap between rich and poor, the erosion of our democracy, and the rise of white nationalism. These challenges, she argues, are not inevitable. They are the result of choices we have made as a society. And they can be overcome if we are willing to work together to create a more just and equitable future.

Mark offers a detailed plan for how we can achieve this goal. She calls for a renewed commitment to civil rights, economic justice, and environmental protection. She also emphasizes the importance of building bridges across racial, religious, and political divides. Only by working together, she argues, can we create a society that is truly just and equitable for all.

*Our Nation Reborn* is a powerful and inspiring call to action. It is a book that will challenge you to think critically about the state of our nation and to take action to create a more just and equitable future. If you are passionate about social justice and believe that a better world is possible, then this book is for you.
