James Mathis's Brief But Affectionate History is a comprehensive and engaging history of the United States, from its colonial origins to the present day. First published in 2015, this revised and expanded edition includes new material on the Trump presidency, the COVID-19 pandemic, and the Black Lives Matter movement.

Mathis writes with a clear and concise style, making *Brief But Affectionate History* accessible to readers of all levels. He also has a gift for storytelling, bringing the past to life with vivid characters and anecdotes.

One of the things that sets *Brief But Affectionate History* apart from other American history textbooks is its focus on the everyday lives of ordinary people. Mathis shows how the decisions made by politicians and generals have affected the lives of ordinary Americans throughout history.

For example, Mathis discusses the impact of the American Revolution on the lives of women. He shows how the war gave women new opportunities for economic and social independence, but also how it reinforced traditional gender roles.

Mathis also discusses the impact of the Civil War on the lives of African Americans. He shows how the war led to the end of slavery, but also how it left a legacy of racism and discrimination that continues to this day.

*Brief But Affectionate History* is a valuable resource for anyone who wants to learn more about American history. It is a well-written, engaging, and informative book that will appeal to readers of all levels.

### **Praise for *Brief But Affectionate History***

“

***“ "A masterful synthesis of American history, told with wit and insight." — The New York Times”***

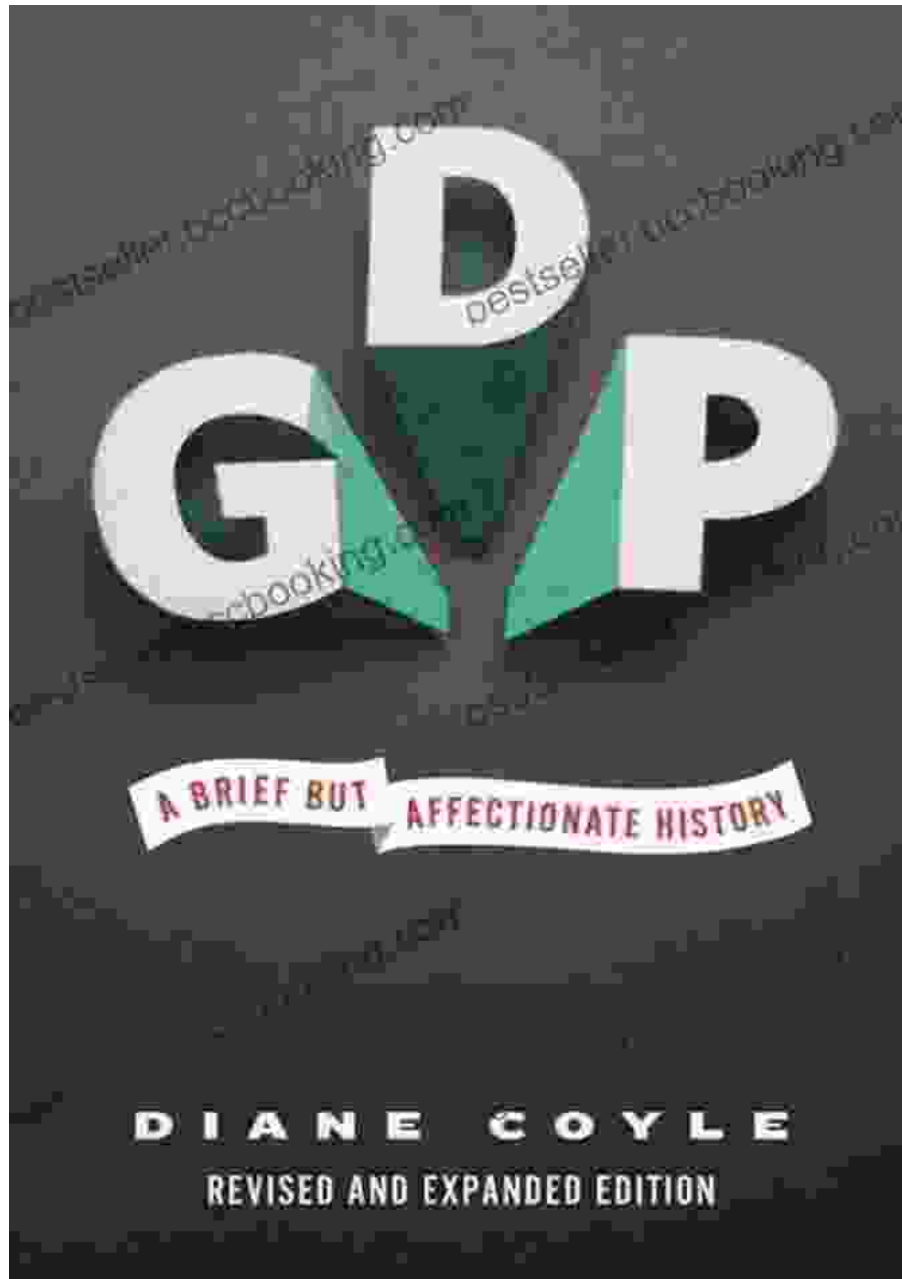

“

***“ "The best single-volume history of the United States available." —The Washington Post”***

***“ "A must-read for anyone who wants to understand the American past and present." —The Boston Globe”***

If you are looking for a comprehensive and engaging history of the United States, I highly recommend Brief But Affectionate History by James Mathis.
